(Barre Times)

Apparently the courageous customs inspector, Ralph B. Flanders of Island Pond, paid the penalty of his relentless and unremitting pursuit of opium and liquor smugglers. The story reads like a movie scenario and gives us some idea of what to expect when the country finally "goes dry" and a half million deputies, more or less, undertake to enforce the law.

A Friend of Mine

a retail druggist of Tampa, Fla., which, by the way is the largest cigar manufacturing city in the world, conceived the idea that druggists should have their own cigar factory, and after some effort he succeeded in organizing a company. I joined and shortly after they began manufacturing cigars I stocked some of the brands I thought best suited for my trade and the results have been most gratifying.

No dope or foreign substance is used as is the case with many cigars on the market, only pure tobacco which is skillfully blended with the leaf grown in different sections of the island of Cuba.

The factory has been inspected several times by druggists and always found in a neat and sanitary condition.

In a Tampa-Cuba Cigar you get more value for your money than in any other.

Try a cigar that is made right, kept right and sold right.

PRESS COMMENT

Keep the Good Cows in Vermont

(Hardwick Gazette)

The Hardwick Gazette calls attention to the fact that 90 per cent. of the \$20,000 herd blooded Jerseys that was sold at the Bronson auction at East Hardwick, went to New England buyers, the balance going as far west as Kansas, and that Vermont dairymen were bidders on 79 per cent. of the stock. This famous herd, continues the Gazette, was founded in 1853, by William D. Bronson and carefully bred later by his son, Timothy G. Bronson, who died four years ago, and had acquired a national reputation.

It is a matter of state pride that so much of this herd was kept in Vermont, as it means much for the future of dairying to have only the best stock on the farm.—St. Johnsbury Caledonian.

The above comment has been published in a number of state papers. It was gratifying to us to state that so much of this blooded herd remained in the state, although it was lost to the town. In this connection the Gazette might recall the fact that this year, three important sales of blooded cattle have been held in the town of Hardwick.

The first was the sale of Holstein stock, and reached nearly \$12,000; the next was that of G. J. Perkins & Son, of the same breed of cattle and amounted to about \$7,500, and the one above commented on. A good share of the first two sales also remained in the state and in this section in particular. Probably few towns, if any in the state, have had as many sales of as highly bred cattle in one season. Naturally where such herds have existed the propagation of blooded cattle has become common in the community and the farmers of this section have been and are being rewarded for their efforts in returns from their dairies.

Academy Notes

The foot ball season of the Green and White begins today, when the squad journeys to Barre to engage Spaulding Seminary in a fight for the possession of the pigskin. Owing to the poor footing the practice for the last two nights has consisted mainly in lengthy signal practice although Friday night a short scrimmage was held. The probable lineup for today's game was: Captain Silsby, center; Osgood and Gilfillan, guards; Maurice and Harvey, tackles; Bowen and Shores, ends; Warden at quarterback; May and Lanpher, half backs and Ashton at fullback. We are just quietly wondering what will happen when Ashton hits that line? French, Lyster, Hamilton and Hunter are accompanying the team in case of any casualties.

Interesting Happenings Here and There From all Sections of Old Vermont

Judge Edwin L. Hastings, aged 75, and assistant judge of the Windham county court eight years until a year ago, died Thursday at his home in Townshend. He was a native of Windham and in 1866 married Mary E. Farr of that town, moving to Townshend three years later. He was a prominent farmer and at one time was largely interested in sheep husbandry. Judge Hastings was school superintendent a number of years, also lister, constable, tax collector and town treasurer at different times and represented Townshend in the Legislature of 1890.

The Barre police are still looking for Antonio Cedroni, whose name was Verino, and who was charged with shooting at Leo Spenn, but who actually hit Joe Christoforo of Montpelier, Saturday evening. It is believed Cedroni has gone in the direction of Boston and will try to get passports to go to Italy, for it is understood he intended to make that form of a getaway.

Jewish People Observe Yom Kippur

Today is Yom Kippur, the great Jewish Day of Atonement. It will be faithfully celebrated in all the Jewish synagogues, institutions and Jewish homes in America. To its sanctity as the most important of the Fast Days, there is added a double significance for the calendar has brought Yom Kippur on the Jewish Sabbath, making it a doubly sacred day, and it is perhaps the most tragic Day of Atonement in the history of ancient Jewry.

America is the only land in which the new month of Tishri, the Hebrew January, brings any joy to the Jewish population. The year of 5680, reckoning from the Day of Abraham on the Jewish calendar, dawned on September 25th, the Feast Day of Rosh Hashonah. It was not a feast for some six million starving Jews of Europe because every day for the past four years has been a fast day for most of them. So today's Yom Kippur fast will be all too easy for these millions to observe.

In view of the terrible situation abroad, Jews throughout the country have organized campaigns and drives to raise a total of \$55,000,000 in the United States under the direction of the American Jewish Peoples' Relief Committee which are appropriately culminating in many states with the beginning of the Jewish New Year.

OH MY STOMACH
"I had stomach trouble so badly that nothing I ate would digest as it should," said Sadie E. Hamilton, Portland, Me., as she began a remarkable story of the relief she has secured from Argo-Phosphate, the new reconstructive, stomach tonic and system purifier.
"Everything that I ate would lie in my stomach like a lump," she explained. "Gas would form and I would suffer distress all the time. I got so I could hardly keep anything down. Trying to get relief, I had my stomach pumped out, but even this did not help me as I continued just as bad."
"I kept hearing so much about Argo-Phosphate that I thought maybe it might help me and I decided to try it. I have taken two bottles and to my surprise I am already feeling fine. I can eat anything and I am not troubled at all."
"I am completely rid of my old stomach trouble that I had for three years. I have not felt so well for years and I am certainly glad to endorse Argo-Phosphate because I want others to be helped by this wonderful medicine."
"The spirit of wanting to help others is what makes suffering men and women give these splendid public endorsements of Argo-phosphate," said a local druggist.
